About

The Walking for Harm Reduction through Street Engagement (WHiSE 2.0) project seeks to generate new insights into the harm reduction needs preferred and used by Indigenous people in Thunder Bay, Sault Ste. Marie, and Sudbury. Also, the project aims to determine the rates of sexually transmitted and bloodborne infections and substance use among Indigenous populations in these cities. By gathering data on preferred harm reduction approaches, the research team can evaluate the effectiveness of strategies, enabling Community Leaders, Elevate NWO, and Oahas to tailor their services to better meet the needs of their Indigenous clients.

Land Acknowledgement

We would like to acknowledge that we are in Robinson-Huron Treaty territory and that the land on which this project is situated is the traditional territory of the Anishnaabeg, specifically the Garden River and Batchewana First Nations, as well as Métis People.

ONTARIO ABORIGINAL HIV/AIDS STRATEGY (Oahas)

Services

Oahas provides culturally respectful and sensitive programs and strategies to respond to HIV/AIDS among Indigenous people in Ontario. Some of the services they offer are:

- Harm reduction supplies (e.g., condoms and naloxone)
- Assistance accessing food, clothing, and shelter
- Access to traditional medicines and supports
- Support with HIV/AIDS discrimination issues, including referrals to legal supports
- Pre and post-test supports

A person wearing a white lab coat is holding a large, textured red HIV/AIDS awareness ribbon. The ribbon is looped and crossed, forming the classic symbol. The person's hands are visible at the ends of the ribbon. The background is a soft-focus white.

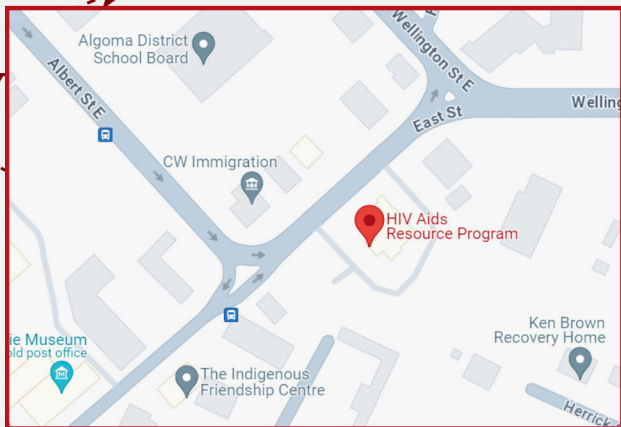

HIV/AIDS RESOURCE PROGRAM (HARP)

Services

HARP is the leading source for HIV/AIDS information and support in Sault Ste. Marie. They provides harm reduction materials in an understanding and supportive environment. Some of their services include:

- Harm reduction kits (e.g., naloxone and fentanyl testing strips)
- Support with access to HIV treatment
- Education on HIV
- Referrals for further support
- Case management

The background of the slide features a close-up of an orange plastic pill bottle. The bottle's label is partially visible, showing the word 'METHADONE' in large, bold, black capital letters. Below this, there is a warning section with the text 'WARNING: This drug and other users to the risks of'. Further down, the dosage instructions 'TAKE 1 TABLET BY MOUTH 2 TIMES A DAY AS NEEDED' are printed. Below the dosage, it says 'QTY 20' and 'NO REFILLS - DR. AUTH REQUIRED'. In the bottom left corner of the image, several white, round, flat tablets are scattered. Overlaid on the center of the image is a white rectangular box with a dark blue border. Inside this box, the text 'ONTARIO ADDICTION TREATMENT CENTRES (OATC)' is written in a bold, dark blue, sans-serif font, arranged in five lines.

ONTARIO ADDICTION TREATMENT CENTRES (OATC)

Services

OATC focuses on a harm reduction model that encourages long term sobriety from all illicit substances. Some of their services include:

- Methadone treatment
- Suboxone treatment
- Sublocade treatment
- Kadian treatment
- Hepatitis C screening and treatment
- Needle exchange and safe inhalation program
